

Enduring Partnerships. Endless Insights.

Infinity Laboratories has over two decades of experience helping the pharmaceutical industry assure the safety and efficacy of drug products. We offer a full suite of analytical testing services for raw materials, in-process materials, and finished products from our national network of facilities, ensuring regulatory compliance while also accelerating the path to market.

Your Local Testing Partner, Nationwide.

- 130+ staff
- 8 state-of-the-art laboratories
- FDA registered and operating to cGMP
- DEA licensed
- ISO accredited
- 60,000 assays per year

Leverage a Single-Source Testing Solution

- ✓ Method Development, Validation & Regulatory Support
- ✓ Analytical Chemistry Testing
- ✓ Wet Chemistry Testing
- ✓ Stability Testing
- ✓ Microbiology Testing
- ✓ Sterility Assurance Testing
- ✓ Gas & Water Testing
- ✓ Extractables & Leachables Studies

- ✓ Extractables & Leachables Studies
- ✓ Container Testing
- ✓ Package Testing
- ✓ Sterilization, Cleanroom & Instrumentation Services
- ✓ EO Sterilization
- ✓ Cleanroom Validation & Certification Services
- ✓ Environmental Monitoring
- ✓ Laboratory & Process Instrumentation Services

Infinity Laboratories has over two decades of experience helping the pharmaceutical industry assure the safety and efficacy of drug products. We offer a full suite of analytical testing services for raw materials, in-process materials, and finished products from our national network of facilities, ensuring regulatory compliance while also accelerating the path to market.

Method Development, Validation & Regulatory Support

Our team has managed analytical programs for a diverse range of drugs products. This experience allows us to tap into numerous validated internal methods, accelerating your program.

- Chromatography
- Spectroscopy
- Total Organic Carbon (TOC)

Microbiology Testing

Infinity offers robust microbiological testing for every stage of your drug product's lifecycle to eliminate the risk of microbial contamination.

- Bioburden testing
- Biosafety testing
- Media fills
- Microbial culture media preparation
- Mycoplasma testing
- Pyrogen testing
- Cleaning validation
- Sterility testing

Cleanroom Certification & Testing

Infinity goes beyond counting pathogen particles by designing and executing comprehensive cleanroom programs.

- cGMP cleanroom certifications
- Cleanroom validations
- Environmental monitoring
- ISO 9001 Certified

Analytical Chemistry Testing

Infinity's team supports the entire product lifecycle from early-phase development to commercial production, including raw materials, API, and finished products.

- Comprehensive monograph testing (USP, EP & JP)
- Chemical & physical testing
- Assays to support the entire lifecycle
- Early phase to commercial production

Extractable & Leachable Studies

Infinity provides a one-stop solution for extractables and leachables studies to identify potentially harmful contaminants within your drug product.

- Elemental impurities
- Impurity identification
- Material compatibility
- Plastic components & systems
- Plastic packaging systems & materials of construction
- Single-use bioprocessing systems

Package Testing

Infinity's A2LA-certified laboratory conducts robust testing to assess your package readiness for distribution.

- ASTM, ISO, and ISTA standards
- Distribution-related pressure testing
- Multiple rounds of assessments for each test
