

Laboratory & Process Instrumentation Services

Infinity Laboratories offers Calibration, Qualification, Preventative Maintenance and Repair Service on a wide variety of Laboratory and Process Instruments.

Robust calibration plays a key role in ensuring quality and reliability of the test and measurement equipment that you use. This, in turn, is essential in ensuring that your products and processes comply with regulatory requirements. Various standards and quality assurance systems also require regular inspections and calibration of testing equipment.

With over 25 years' experience, you are in good hands with Infinity Laboratories as your partner for qualified calibration management. You do not need to invest in expensive calibration instruments and the technical resources to perform this in-house. Our comprehensive and accredited certification and calibration services ensure that your products meet all relevant regulations.

INSTRUMENT CALIBRATION

- HPLC & UPLC Systems
- Gas Chromatographs
- GC/LC Mass Spec
- Light Scattering Detectors
- Fluorescence Detectors
- Refractive Index Detectors
- A/D Converters
- Spectrophotometers
- Titrators
- pH/Conductivity Meters
- Dissolution Apparatus
- Centrifuges
- Viscometers
- Balances
- Laboratory Weights
- Thermometers
- Melting Point Apparatus
- Pipettes
- Digital Indicator/ Controllers
- Chart Recorders
- Water Baths
- Temperature/Humidity Chambers
- Moisture/Solids Analyzers
- Pressure Gauges
